

**ELMOTO**

## ELMOTO ELECTRIC DRIVE THE RIDE OF THE FUTURE

ELMOTO is designed for driving pleasure, which sets it apart from all other electric bikes and e-scooters on the road today. The ELMOTO HR-2 model represents the future of transport in urban areas.

Riding ELMOTO, you will enjoy unlimited, eco-friendly travel in the city.

Going to work, visiting friends or simply cruising round the city is now low cost and emission-free.

**ELMOTO - urban lifestyle motorcycle.**

- Latest lithium-ion technology for a range of up to 45 miles
- Powerful 2kW motor (55Nm)
- Maximum speed of 28mph (45km/h)
- Weight of 45kg
- Sports suspension for driving pleasure

## INNOVATIVE TECHNOLOGY UNPRECEDENTED FREEDOM

ELMOTO HR-2 is based on a lightweight and high-strength aluminium frame. The power generated by the engine is immediately available with direct acceleration.

Thanks to our state-of-the-art battery technology and our patented electronic drive the ELMOTO can reach distances of up to 45 miles before it needs a recharge.

## CERTIFIED DRIVING PLEASURE

ELMOTO HR-2 is certified for driving on a P class licence (minimum 16yrs) with CBT and for all holders of car driving licences. The current road tax is free. All you have to do is arrange your insurance, put on your helmet and then hit the road.

The frame features a special double anti-shock system which provide safe and convenient travel, even if the street gets a little bumpy or if you decide to go off-road. There are lights fitted to allow for safe driving at night.

The engine is low-maintenance and the sealed electronic device gives guaranteed durability even when conditions get tough. The onboard computer informs you of your speed, battery status and cruising range.

**ELMOTO - driving pleasure, design and sustainability.**
